Comments from Voters

Austria (ASI) Cast by Weinkogl, Kathrin Mrs

Comment to Q.2	EN 17173:2020 European CBRNE Glossary contains numerous terms and definitions around CBRNE events. It needs revision anyway; the new terms for roles during a CBRN event could easily be included in this EN during the revision process. It would be beneficial to have all terms and definitions in one single document.

Ireland (NSAI) Cast by Bracken, Claire Ms	
Comment to Q.3	This is a very important proposal, given the AI world that we now live in.
Comment to Q.4	Tom Flynn, Stephen Purcell.

Comment to Q.4	Adalberto Biasiotti
Sweden (SIS) Cast by Jansson, Anna-Karin Ms	
Comment to Q.1	There is no need to create a separate document on this issue when there is already a European standard for CBRNE (EN 17173:2020 European CBRNE glossary). If more terms are needed, CEN should initiate a revision of the existing standard rather than creating a new one.
